## **User Manual**

Connecting MetaMask  
on iOS

[www.strmnft.com](http://www.strmnft.com)

## Terminology

**NFT** — Non-fungible token

**STRM** — StreamCoin, the primary utility token of the StreamCoin ecosystem

**NSTA\_602** — NFT Standard Token Agreement\_602, StreamCoin's dedicated token standard for minting NFTs

**BEP-20** — A token standard on Binance Smart Chain

**Stream Chain** — The native blockchain for the StreamCoin ecosystem

**MetaMask** — A software cryptocurrency wallet

## **STRMNFT Overview & Requirements**

STRMNFT is an all-in-one marketplace that allows users to create NFT ownership for their videos and images at an exceptional speed and with low transaction fees. It operates on Stream Chain and utilizes StreamCoin's own NFT standard, NSTA\_602, to create NFTs.

The STRMNFT marketplace has a web interface that works with any desktop or mobile device. However, there are some requirements users need to meet in order to benefit from all STRMNFT features:

- A valid email address to register on the marketplace.
- A MetaMask wallet to connect to STRMNFT (Required to mint and buy NFTs).
- A sufficient STRM balance (BEP-20 tokens only) for minting fees (Until July 2022, all NFTs will be minted with zero fees).

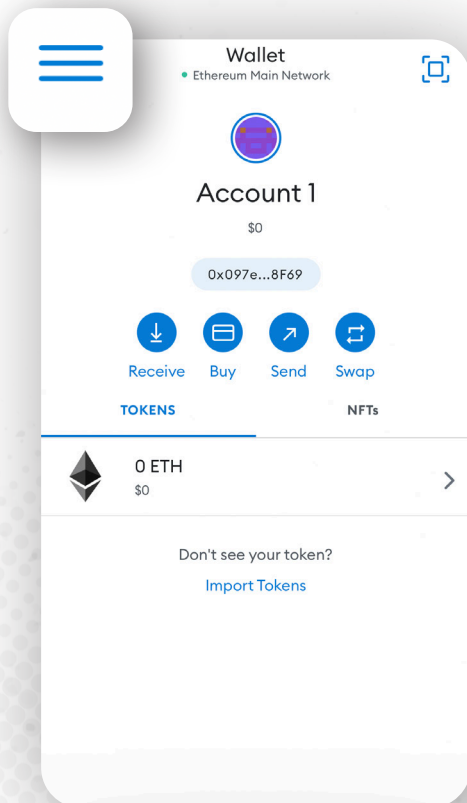

## Connecting MetaMask on iOS

You need to set up MetaMask with the Binance Smart Chain network and the BEP-20 STRM token in order to make transactions on STRMNFT.

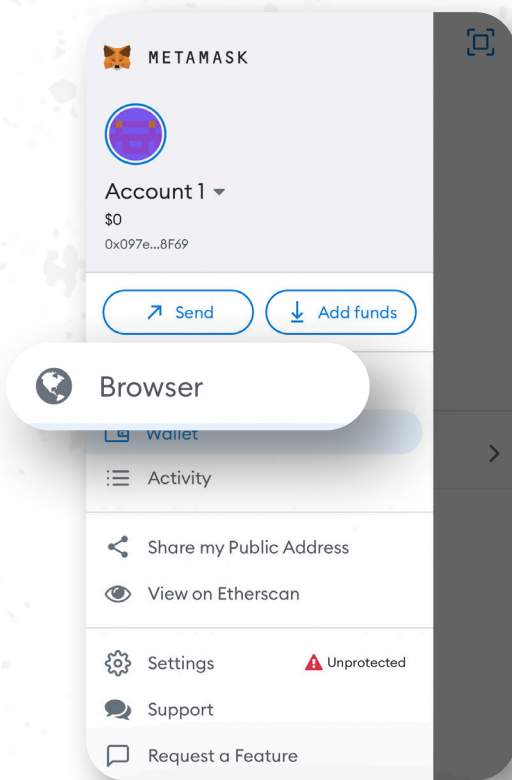

If you do not have a MetaMask wallet, you can refer to our guide on how to create one: <https://medium.com/p/818efefb7c45/>

Once your MetaMask wallet is created, you can set it up with STRMNFT and import the STRM token by following these steps:

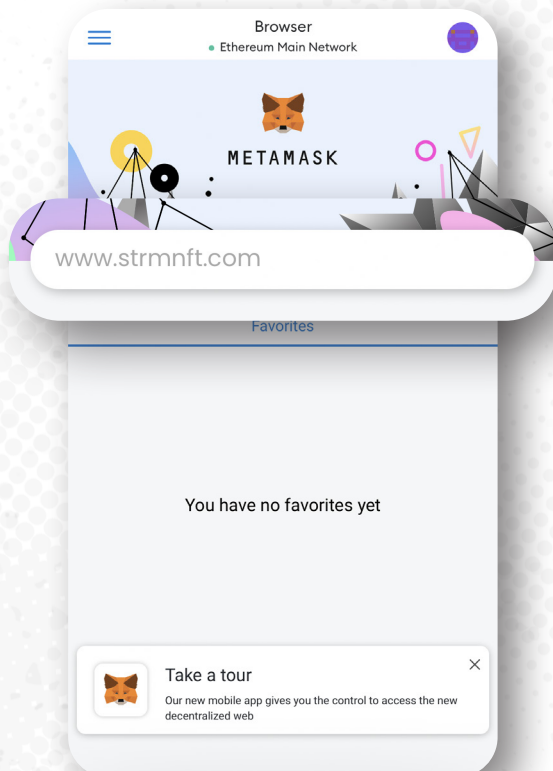

1. Open your MetaMask wallet app.
2. Open the side menu by pressing the 3-line button in the top left corner.

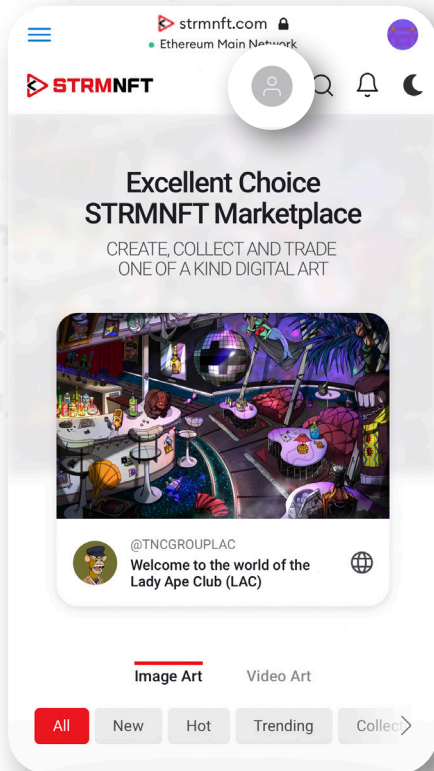

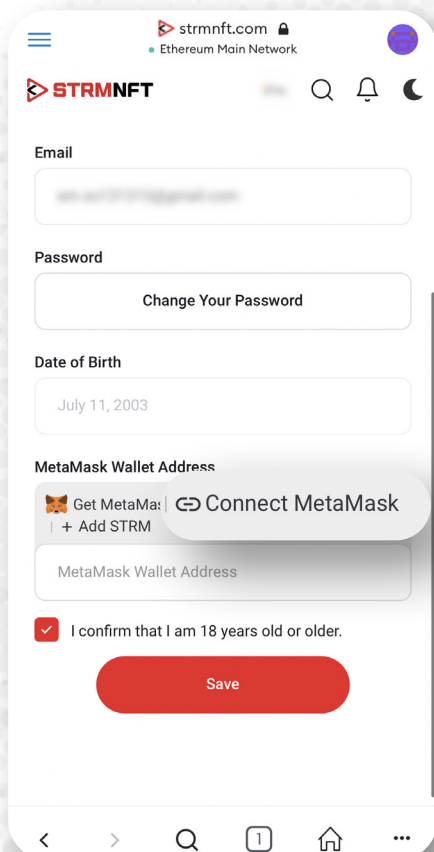

3. Press **Browser** to open the MetaMask in-app browser.

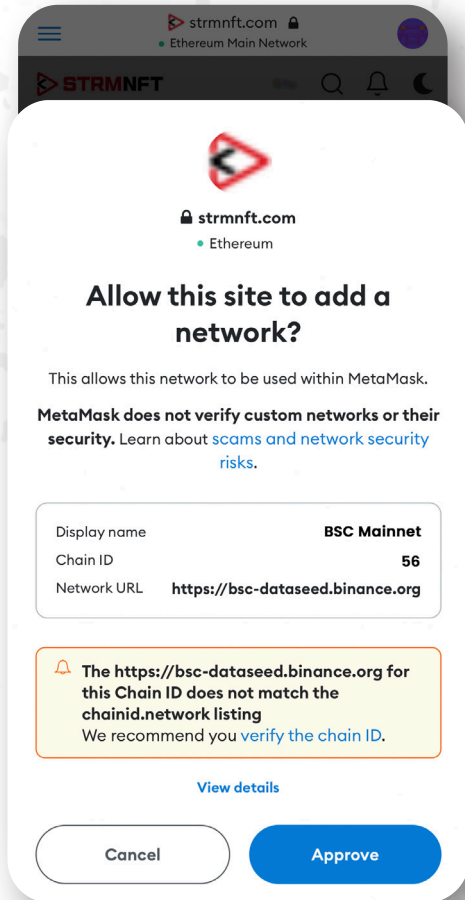

4. Go to the STRMNFT website and sign in with your account.

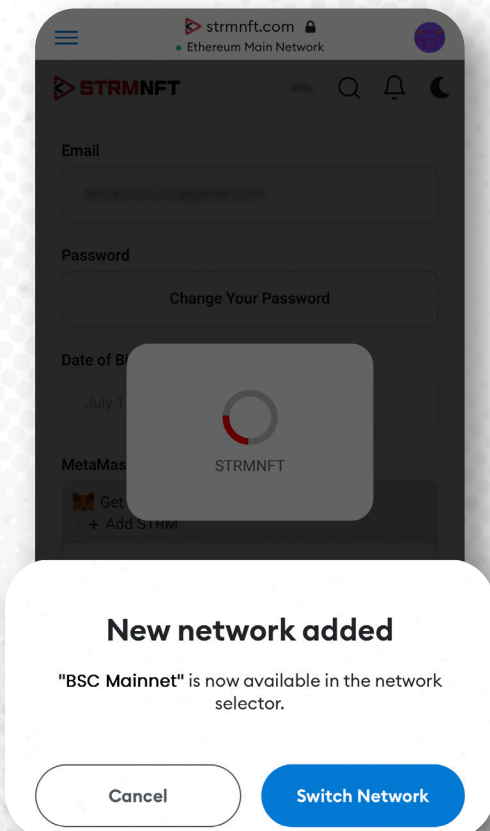

- Click on your account's icon to open the menu, and press **Settings**.

- Scroll down to the **MetaMask Wallet Address** section and press **Connect MetaMask**.

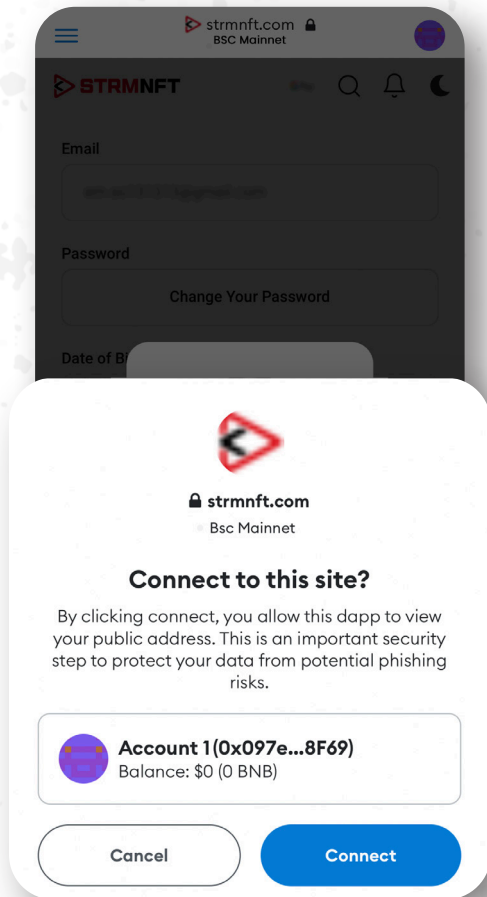

7. The MetaMask wallet will redirect you to the Binance Smart Chain network\*; press **Approve** (If the Binance Smart Chain network is already added to your MetaMask, you will only be asked to switch to it).

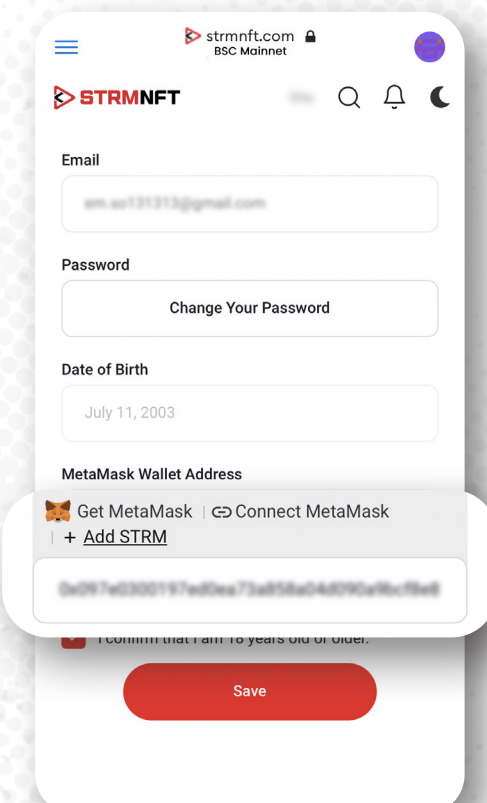

8. Press **Switch Network** to switch to Binance Smart Chain.

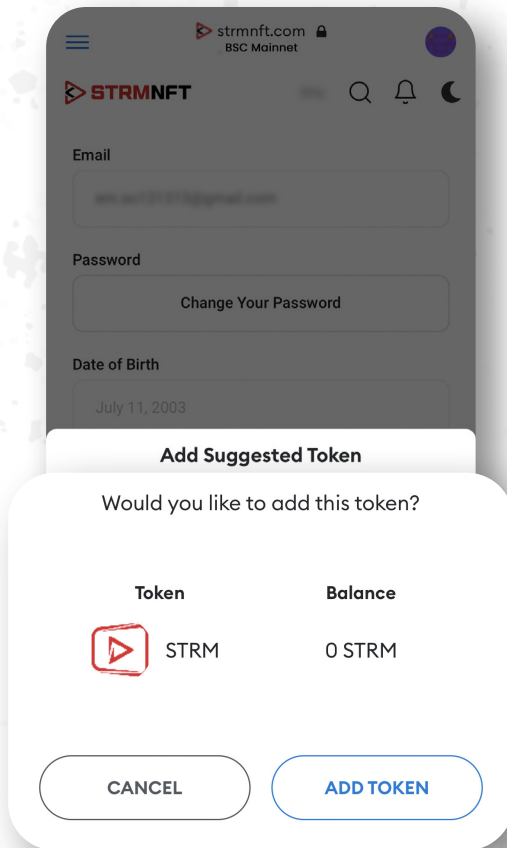

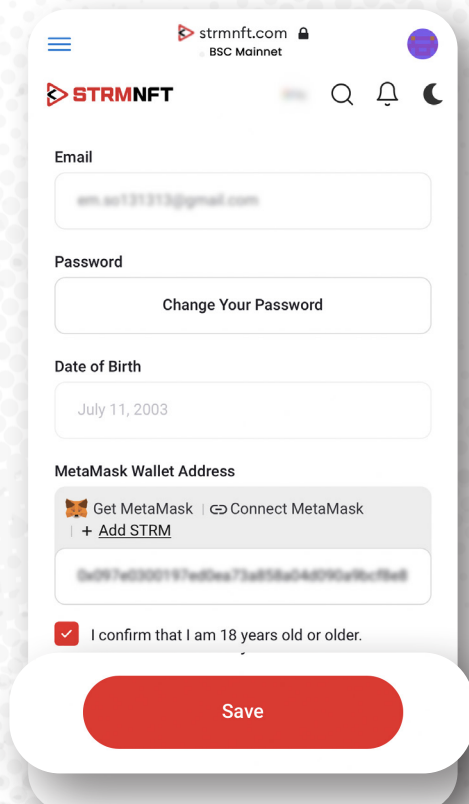

9. Press **Connect** after choosing the MetaMask account you want to use.

10. Once the linking is done, your MetaMask wallet address will be added automatically.

11. To import your STRM tokens, press **Add STRM**, and then **ADD TOKEN** on the MetaMask wallet (In case you have the STRM token already added to your MetaMask, you can skip this step).

12. Press **Save** to save your wallet information.

**\*Note:** STRMNFT can only be linked with MetaMask using the Binance Smart Chain network. MetaMask cannot be linked with STRMNFT using any other networks like Ethereum, Avalanche, etc.
